

# CORONAVIRUS DISEASE (COVID-19) TESTING

for Fertility Patients & Staff

The ReUnite logo features a stylized 'R' in a circle followed by the word 'eUnite' in a sans-serif font.

ReUnite Dx is now offering COVID-19 testing by RT-PCR (reverse transcription-polymerase chain reaction).

ReUnite Dx has partnered with Fulgent Genetics, a leading clinical genetics laboratory, to offer exclusive COVID-19 RT-PCR testing to fertility clinics.

Fulgent Genetics was founded in 2011 and publicly traded on the Nasdaq, FLGT; CLIA certified, CAP-accredited, and NYS approved with quality controls built into all procedures at every step.

Fertility Clinics  
Exclusive Program  
We are bringing this test to fertility clinics to help screen patients when they are ready to start doing fertility treatments again.

ReUnite DX is now offering diagnostic tests for the virus that causes COVID-19 (referred to as SARS-CoV-2). Rapid identification of individuals with this virus is important in addressing this escalating public health issue.

## WHAT IS THE TURNAROUND TIME?

- RT-PCR: 48 - 72 hours
- Reports delivered electronically
